

LEADING Lithium Technology

The latest collaboration between E-Z-GO and Samsung SDI brings compact, efficient batteries with the latest safeguards in lithium technology to golf carts. The Gen 3 battery offers consumers new amp hours and safety features, while delivering the same efficiency, thoughtful design and low maintenance that ELiTE vehicles are known for.

Why Gen 3 Matters?

GREATER
STANDARD CAPACITY

DESIGNED FOR
MORE ACCESSORIES

MAXIMUM
PERFORMANCE

Battery Pack	Battery Modules	Capacity	Pricing	Gen 2 Comparison	Great For...	Accessory Support Load
PLUS		74 Ah	Standard	20 Ah greater than Single Pack	Neighborhood Driving, Short Trips	Minimal
MAX		148 Ah	+\$1,850 MSRP	6 Ah less than Triple Pack	Errands, Longer Distances	High

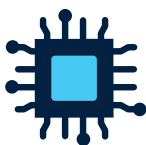

Key Features

Zero Battery Maintenance

No watering or terminal cleaning.

Seamless Battery Management

The BMS, battery and vehicle are created to work as one.

Protection-First Design

Durable cover and tray guard against water, dirt and debris.

Advanced Lithium Safety

Built-in fire suppression for added reassurance.
